CAPABILITY STATEMENT · REV. 2026-10
periphera.tech/capability-statement

Peripheral Technologies LLC

dba Periphera · Service-Disabled Veteran-Owned Small Business

Operator screens for sensors and AI. Design systems, front-end, UX research. Accessibility built in.

SDVOSB · VOSB, SBA VetCert · UEI QD25XNFTDEG6 · CAGE 1Z8R3 · NAICS 541511 primary · SAM active to 2027-10-15

01 — CORE COMPETENCIES

- Operator Interface Design: Dashboards and Control Screens for Sensor and AI Systems
- Design Systems: Accessible User Interface (UI) Component Libraries and Governance
- Product Design: User Experience (UX) and User Interface (UI) Design and Prototyping
- UX Research and Usability Testing, including Assistive-Technology Users
- Front-End Engineering: Agile Web Application Interface Development (React, Angular)
- Built-In Accessibility: Section 508 and WCAG 2.2 AA Design and Code

02 — PAST PERFORMANCE (COMMERCIAL) AND KEY PERSONNEL

Federal past performance: none yet. The work below was done by the founder as an employee, before the company was formed on 2026-03-28. References on request.

Nolan Figueroa, founder. UX and front-end work since 2015, including 4.5 years as an employee at Charles Schwab and its Everest design system. USAF Security Forces Staff Sergeant, 2006-2012, honorably discharged. MS in Human-Computer Interaction (RIT), in progress.

Enterprise Design System

On Charles Schwab's Everest design system, kept hundreds of component variations in parity across web, iOS, and Android, held to WCAG 2.1 AA.

Production Front-End

API-integrated Angular components, and React components for the Everest design system, shipped through enterprise review in a regulated environment.

Research That Moved Metrics

Contextual research on an onboarding redesign that contributed to an efficiency improvement of more than 40 percent.

03 — DIFFERENTIATORS

Accessibility in Every Deliverable

Built to WCAG 2.2 AA. Issues in existing code are fixed there, not left in a report.

Delivery in the Agency's Repository

Components delivered in Agile cycles, in the agency's repository, through its review process.

Founder-Led Delivery

One accountable founder leads every project from design through code, adding specialists from a professional network as the scope requires.

Published Conformance Report

periphera.tech publishes its Accessibility Conformance Report; nothing ships without passing an automated accessibility check.

04 — COMPANY DATA

UEI / CAGE	QD25XNFTDEG6 / 1Z8R3
CERTIFICATIONS	SDVOSB and VOSB, SBA VetCert certified 2026-09-16, renewal 2029-09-16. Verify: search.certifications.sba.gov
SAM.GOV	Active, all awards, expires 2027-10-15. No active exclusions. Verify: sam.gov/entity/QD25XNFTDEG6

NAICS	541511 Custom Computer Programming Services (primary); 541512, 541519, 541611, 541430, 611420, 541690, 541990
PSC	DA01, DA10, R499
ENTITY AND SIZE	Texas LLC, formed 2026-03-28. Startup: 1 employee, the founder. Revenue: none yet.

How to buy. SDVOSB set-aside or sole source (FAR 19.14) · VA Vets First (38 U.S.C. § 8127) · Simplified acquisition (FAR 13) · Subcontract to primes with SDVOSB goals (FAR 19.704)
